

I am a Truck Driver with XM Radio in my truck. I use XM's Instant Traffic & Weather all the time. I drive in the mountains where I can't pick up a radio signal, but I can always pick up XM. For me, it's important to be able to find out instantly what the weather or traffic up ahead is. I pay for this service and feel it should not be up to the National Assoc. of Broadcasters to dictate what I am permitted to hear. Satellite Radio provides variety and quality that are not available elsewhere. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve!!
